BCCPAC Committee Report

3.1.2

Dec. 2009

The copies of the manual that were in storage have now been distributed (Board resolution Sept 2009). The response to the information that this resource was available was huge. A large number of the manuals were kept to distribute to members at the Fall conference. Every delegate who attended the PAC 101 workshop received a copy of this resource. They have now all been distributed.

The Committee along with a number of Focus group participants reviewed the 2004 Leadership Manual. The feedback from this review has now been collated and is ready for the next step.

The committee would like to move forward and continue on with the revision to the manual – we would be sending identified sections to appropriate partners for feedback and input. We would also like to be assured of financial support to see this much needed revision completed.

The timeline is to have a draft to the Board for the February Board meeting and the launch of a "new" resource at the Spring Conference/AGM.

In the interim we would put the three most 'popular' sections on the website with some updates/revisions.

Note - The committee did review the two documents created as replacements for the Leadership Manual by a contractor under the direction of the COO during the period of Fall 2008 – June 2009 (motion of June 2008). The consensus was that these documents would not be appropriate to use as resources for PACs and DPACs – main concern was the language – too much eduspeak and too much information that was not necessary or relevant. documents were not was intended in a review and update to the Leadership Manual.

The committee would like to receive feedback from the Board on this final document.

It is hoped that an IEP Guide will be available on the BCCPAC website and also in the future as a hard copy.
