This was a very interesting group of people. This group was formed by the trustees in response to a resolution that they passes a few years ago. This group meets 3 times a year. Many of the members advise the minister of education on matters.
We can suggest a topic for discussion and they will arrange for a speaker on that subject, then we discuss how this topic can be handled in schools across the province.
Today's main topic was safe water in schools. We had a report on Safe Drinking Water from Barry Boettger, Provincial Drinking Water Officer, Ministry of Health and were given the 141 page report from Dr. Perry Kendall.
We had many discussions. None that would be of huge interest to BCCPAC at this time, but this is a perfect group to introduce one of our healthy motions for discussion. Our next meeting will be in the new year.
